## Order Picker

# V08

Capacity 0.7 t, 0.8 t and 1.0 t | Series 4594

### Precise pacemaker

- Available as V08-01 with rigid forks of different length and as V08-02 with supplementary fork lift
- Lifting platform up to 1.2 meter in height enables order picking on the second shelf level
- Lift mast control Linde OptiLift ensures smooth lifting movements
- Linde steering wheel with integrated driving and lifting functions enables optimum vehicle control
- Powerful motor for a top speed of up to 10 km/h

# CHARACTERISTICS

Optional lateral sideguards

## Safety

- Raised outer edge of the driver's platform protects the driver from missteps
- Strong bumpers provide protection in the event of minor collisions
- LED headlights and Linde BlueSpot™ improve vehicle visibility
- Driver platform functions completely as dead man's switch
- Additional side rails on the V08-02 protect against falls

Comfortable operator compartment

## Ergonomics

- Height-adjustable Linde steering wheel for a back-friendly working position
- Spacious entrance and low step height make it easier to enter and leave the vehicle
- Spring-loaded driver's platform absorbs vibrations and shocks
- Spacious storage compartments for work materials and personal belongings
- Additional brackets assist the driver in their work

Intuitive Linde steering wheel

## Handling

- Lifting platform up to 1.2 meters in height for effortless access to the second shelf level
- Lift mast control Linde OptiLift enables smooth, vibration-free lifting movements
- Powerful motor provides a top speed of up to 10 km/h
- Self-centering power steering keeps the vehicle on a straight track
- Important driving functions are directly integrated into the Linde steering wheel
- V08-02's pedestrian function allows the vehicle to be maneuvered from the outside

Robust chassis construction

## Service

- Strong bumpers protect the chassis in the event of a collision
- Low-maintenance design ensures high vehicle availability
- Non-contact sensors rarely need to be replaced
- CAN bus connection ensures simple service processes
- Important vehicle components are easily accessible

Subject to modification in the interest of progress. Illustrations and technical details could include options and not binding for actual constructions. All dimensions subject to usual tolerances.
